

WUDINNA RSL MEMORIAL KINDERGARTEN

Procedure: Hot Weather Procedure

Endorsed by Educators & Governing Council August 2024

Rationale:

At Wudinna we live in an environment that can produce extreme weather conditions and extreme temperatures. The following procedure is set out to ensure the health and safety of educators and children at our centre.

Our centre is well air-conditioned and remains at a comfortable temperature on hot days. Once the outside temperature reaches 35°C the director may make the decision to keep children inside during opening hours and children offered a modified Kindy program. This also applies during other extreme weather conditions ie dust storms/wind, thunder and lightning etc.

In extenuating circumstances when the temperature inside becomes uncomfortable (ie due to an air conditioner malfunction or extended power outages) parents may be called to collect their child/ren. Should a parent/or nominee be unable to collect a child, educators will make every endeavour to kept the child as cool as possible within the centre until they are collected.

Any excursions or outings will be reviewed and may be cancelled when the forecast is over 30 and where possible rescheduled.

On warm days children are encouraged to drink more water. Children have access to a refrigerator and children are taught to independently put their lunch boxes in the fridge.

On warmer days we encourage children to play in the shade and all planned physical activity is done in the morning.

For accurate record keeping, parents are asked to notify the centre if they choose to keep their children home due to the weather.

Any purchase of equipment must give consideration to the construction materials and location of the item in regard to heat and the risk of burns.

At Wudinna Kindy we have a Sun Protection Policy which compliments this procedure.
